## Assemble the Jerry Can holder

1

- **Adjust the size of Jerry Can holder to fit the width of the Jerry Can and use M8 Dome bolt and nut to lock them together**
2

- **Insert the provided M8 Dome bolts /Nutsert into the aligned holes and fasten lightly to channel nut**

Assemble the holder to roof rack

3

- *Now place the Jerry Can Holder on the cross-bars allowing the channel nuts to sit into the cross bar.*

NOTE-Ensure the channel nuts are 90 degrees to the channels.

⚠ **Check fastenings are firmly tensioned at regular intervals.**

**Do not overtighten, this will preserve the spring washers.**

4

- **Rotate the channel nut into the cross bar by 90 degree to ensure it is secured**.

WTA-JCH

5
- **Now insert the strap into the Jerry Can Holder as per the diagram.**

6
- **Insert the strap into the ratchet. Refer to the diagram.**

7
- **Tighten it by moving the ratchet handle up and down.**

8
- **To release the strap, open up the ratchet handle and pull the release handle and pull out the strap.**

Thank you for your purchase.
